What is project-based learning?

Project-based learning, is a dynamic approach to teaching students to explore real-world problems and challenges while simultaneously developing cross-curriculum skills and 21st century skills by working in small collaborative groups.

Students helping students.

Why do we use project-based learning?

- Students are actively learning
- Students are inspired to obtain a deeper knowledge of the subject
- Students are more likely to retain the knowledge learned
- Students develop confidence and self-direction as they move through both team-based and independent work.

Rocket Club is out of sight !

Where do we use Project-based learning ?

Personal Finance

Computer Information Systems

Marketing
